

Minjeoung (MJ) Neev

Detail-oriented Corporate Risk Analyst
with expertise in quantitative analysis

Ann Arbor, MI 48108
(231) 489 - 4195
laminjon@gmail.com

Experience

Huntington National Bank – AVP, Allowance Credit Risk Analyst, Sr.

Sep 2023 – present

Detroit, MI

- Support quarterly CECL model execution, conducting macroeconomic analysis and integrating internal and external data sources to analyze model output and scenario forecasting.
- Collaborate with cross-functional teams, including model development, IT, and model validation to ensure model execution and performance align with regulatory standards and internal risk threshold.
- Maintain and enhance SAS-based tools and workflows for risk estimation and stress testing, delivering portfolio insights through in-depth analysis of loan-level data and macroeconomic indicators.

GM Financial – Commercial Risk Analyst II/I

Jun 2019 – Sep 2023

Detroit, MI

- Quantitative Analysis – Conducted sensitivity analysis on credit risk metrics to quantify and translate qualitative risk assessments for commercial portfolios.
- Statistical Modeling – Supported data collection, cleaning, and exploratory data analysis (EDA) for scorecard development; built excel-based models to estimate reserves under varying macroeconomic scenarios.
- Validation and Monitoring – Ensured accuracy of financial reporting and risk exposure through regular monitoring; documented End User Computing Application (EUCAs) and supported Sarbanes-Oxley (SOX) compliance controls.
- Portfolio Risk Identification – Designed custom risk indices to evaluate \$10B+ in floorplan dealership exposure; contributed to quarterly CECL-based loss allowance estimates and asset/reserve forecasting using internal trends and external economic indicators.

Education
